**TRIANGLE CAPITAL CORPORATION REPORTS FIRST QUARTER
2011 RESULTS AND ANNOUNCES \$12.2 MILLION GAIN ON SALE OF
PORTFOLIO COMPANY**

RALEIGH, NC — May 4, 2011, Triangle Capital Corporation (NYSE: TCAP) (“Triangle” or the “Company”), a leading specialty finance company that provides customized financing solutions to lower middle market companies located throughout the United States, today announced its financial results for the first quarter of 2011.

Commenting on the quarter, Garland S. Tucker, III, President and CEO, stated, “Our investment pipeline remained robust during the first quarter as we closed five new investments totaling approximately \$51.5 million. From a capital markets perspective, our February equity offering appears to have been very well timed in terms of providing fresh growth capital at an opportune time. As a result of this fortunate timing, we not only were able to generate significantly higher net investment income per share than we originally had anticipated, but we also believe it positions us to continue increasing our dividend over the next several quarters.”

First Quarter 2011 Results

Total investment income during the first quarter of 2011 was \$12.4 million, compared to total investment income of \$7.5 million for the first quarter of 2010, representing an increase of 66.0%. The Company’s increase in investment income is primarily attributable to new portfolio investments made during 2010 and 2011 which resulted in an increase in total loan interest, fee, dividend and paid-in-kind interest income of approximately \$5.0 million, partially offset by a decrease in non-recurring fee income of \$0.1 million.

Net investment income during the first quarter of 2011 was \$7.7 million, compared to net investment income of \$3.8 million for the first quarter of 2010, representing an increase of 103.7%. The Company’s net investment income per share during the first quarter of 2011 was \$0.46, based on a weighted average share count of 16,848,570, as compared to \$0.32 during the first quarter of 2010, based on a weighted average share count of 11,877,688.

The Company’s net increase in net assets resulting from operations was \$12.4 million during the first quarter of 2011, as compared to a net increase in net assets resulting from operations of \$4.1 million during the first quarter of 2010. The Company’s net increase in net assets resulting from operations was \$0.73 per share during the first quarter of 2011 based on a weighted average share count of 16,848,570, as compared to a net increase in net assets resulting from operations of \$0.35 per share during the first quarter of 2010, based on a weighted average share count of 11,877,688.

The Company's net asset value per share at March 31, 2011, was \$13.42 as compared to \$12.09 per share at December 31, 2010. As of March 31, 2011, the Company's weighted average yield on its outstanding, currently yielding, debt investments was approximately 15.2%.

Liquidity and Capital Resources

At March 31, 2011, the Company had cash and cash equivalents totaling \$73.4 million.

During the first quarter of 2011, the Company completed a public offering of 3.5 million shares of common stock with net proceeds of approximately \$63.1 million.

Also during the first quarter of 2011, Triangle pre-paid \$9.5 million in Small Business Administration ("SBA") guaranteed debentures that had a maturity date of September 1, 2015, and which bore interest at a weighted average interest rate of 5.8%. As of March 31, 2011, the Company had non-callable, fixed rate SBA guaranteed debentures outstanding totaling \$214.6 million. Under current SBA limits, the Company has the ability to issue up to a total of \$9.5 million in additional SBA-guaranteed debentures.

Commenting on the Company's liquidity position, Steven C. Lilly, Chief Financial Officer, stated, "Given the amount of investment activity we experienced during the first quarter, we are pleased to still have sufficient liquidity available to us as of March 31, 2011. In addition, we expect to close on our senior credit facility before June 30, 2011, which will provide significant additional liquidity as we continue to look for attractive investment opportunities."

Gain on Sale of Portfolio Company

On May 2, 2011, Triangle recognized a long term capital gain of approximately \$12.2 million, or approximately \$0.66 per share, in connection with the sale of certain assets of Fischbein, LLC ("Fischbein"). Triangle's investment in Fischbein consisted of \$8.4 million in subordinated debt and \$4.8 million in equity. The total investment yielded an internal rate of return of 33.7%. Fischbein is a global manufacturer of flexible packaging and materials handling equipment.

Dividend and Distribution Information

On February 23, 2011, Triangle announced that its board of directors had declared a cash dividend of \$0.42 per share. This was the Company's seventeenth consecutive quarterly dividend since its initial public offering in February, 2007. The dividend was payable as follows:

Record Date: March 16, 2011

Payment Date: March 30, 2011

Triangle has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend, stockholders who have not opted out of the DRIP will have their cash dividends automatically reinvested in additional shares of the Company's common stock, rather than receiving cash dividends.

When the Company declares and pays dividends, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States (“GAAP”). At each year end, the Company is required for tax purposes to determine the dividend allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes.

Recent Portfolio Activity

During the first quarter of 2011, Triangle made five new investments totaling approximately \$51.5 million, three debt investments in existing portfolio companies totaling approximately \$16.6 million, and two equity investments in existing portfolio companies of approximately \$0.1 million. Also during the first quarter of 2011, two portfolio company loans repaid at par totaling approximately \$11.5 million and the Company received normal principal repayments and partial loan prepayments totaling approximately \$3.4 million.
