### Third Quarter 2015 Results

Total investment income during the third quarter of 2015 was \$30.8 million, compared to total investment income of \$24.9 million for the third quarter of 2014, representing an increase of 24.0%. The increase in investment income was primarily attributable to an increase in portfolio debt investments from September 30, 2014 to September 30, 2015, a \$2.3 million increase in non-recurring fee income and \$0.7 million of non-recurring interest income relating to a debt investment that was previously on non-accrual. Net investment income during the third quarter of 2015 was \$18.5 million, compared to net investment income of \$15.4 million for the third quarter of 2014, representing an increase of 20.1%. Net investment income per share during the third
